WHY STILETTO TITANIUM HAMMERS?

POWERFUL
Titanium has a more efficient transfer of energy in comparison to the high carbon Steel hammers. Get more done with less effort!

PAINLESS
Titanium provides 10 times greater damping of damaging recoil shock vibration than Steel. Less recoil means less pain.

LIGHTWEIGHT
Titanium weighs 45% less than a Steel hammer of similar size. Less weight means less fatigue at the end of a long workday.

PATENTED STILETTO TECHNOLOGY
Stiletto Titanium Tools are designed to reduce the harmful effects that nailing and prying can have on your body. Stiletto has combined the latest materials, patented technology & design innovations to create new tools that enable you to work safer, faster and easier.

Visit Stiletto.com to review our full line of Titanium and Stainless Steel hammers and bars, accessories, replacement parts and gear. Click around to find a decade of press reviews & user testimonials, product development videos, user pics, FAQ page, part replacement instructions & a distributor locator all online.
